Strategic Plan

Our Strategic Plan builds on a strong foundation while placing a renewed focus on sustainable growth, and meaningful community engagement. We are committed to fostering a resilient local economy by creating opportunities that allow our community to thrive.

Growth is not only about numbers, but also about strengthening the connections that make our community vibrant. We will continue to invest in relationships, both within our municipality and with our regional partners, recognizing that collaboration is key to long-term success.

Engaging our residents remains at the heart of everything we do. We are dedicated to listening, involving, and empowering our community members so their voices help guide our decisions. Through open communication and active participating, we will shape a future that reflects the values of those who live, work, and invest here.

This plan represents our commitment to thoughtful growth, strong partnerships, and a connected community. One that is well positioned for opportunity today and for generations to come!

Next Steps...

Administration will use the Strategic Plan developed by Council moving forward. It will help direct budget resources, staff time on various projects and internal decision making.

It is important to understand that this Strategic Plan is a living document, not a rigid plan to be followed unquestionably. If opportunities or challenges arise that require adjustments to these goals, this will happen but without having to create a whole new set of priorities.

It is our intent to review this Strategic Plan and update it as necessary to keep it current and helpful to Council and Administration
